STAGE: Reconnaissance

STATUS: 20 Sept 2000, HQ approved the Section 905(b) Analysis Reconnaissance Report. To date the Detroit District has been unable to identify a willing cost sharing partner. However in a meeting held Jan 2006 revealed a renewed interest among several potential sponsors to re-energize the project. Dredging and Capping Construction Phase Alternatives ranged from \$ 140-\$ 430 million. Funds received in FY08 will be used to identify priority projects for remediation and complete additional reconnaissance.
